## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In view of the amendments, the claimed invention is novel and unobvious over the cited prior art of Murphy, Wiemann, Ronaghi and Jin. In particular, no prior art was found that teaches a method of sequencing a nucleic acid molecule comprising the steps of hybridizing an unblocked primer and one or more reversible-blocked primers to a template, extending the unblocked primer and preventing further extension, deblocking one of the reversibly-blocked primers and elongating from it, and finally, preventing further extension from the second primer.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany an issue fee. Such admissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
